

## Patient Connect

*An easy and seamless online dispensary for your practice*

We value our healthcare professional community and our Patient Connect program promises to build rewarding partnerships, available exclusively to healthcare providers.

With our new program, you share your unique link to Mountain Peak's online dispensary with your patients. They purchase our high quality, naturopathic formulated Condition Specific Formulas<sup>®</sup> directly and you benefit without having to maintain inventory in your medinary, process payments, or deal with shipping! As a courtesy, and to help incentivize your patients, we also offer a unique coupon code which grants your patients a discount + free shipping.

For more information about how you can participate and start earning cash rewards, while helping your patients enjoy optimal health, please contact us!

MPN features a full line of Condition Specific Formulas<sup>®</sup>
